TOPIC ANKLE ARTHROPLASTY AND FUSION

Chair: Badekas T., Wanivenhaus A.

16:45 – 17:05	Total ankle fusion: Where is the place	Barg A., USA
17:05 – 17:25	Is the TAA suitable for every deformaty	Hintermann B., SUI
17:25 – 17:45	Long term functional and radiographic outcome of a mobile bearing ankle prosthesis (STAR)	Stukenborg Ch., GER
17:45 – 17:55	The effect of subtalar motion and shape on calcaneal osteotomies	Krause F., SUI
17:55 – 18:05	Total ankle arthroplasty in posttraumatic conditions	Hart R., CZE
18:05 – 18:15	Possibilities and limitations of ring fixation treatment	Wirth St., SUI
18:15 – 18:30	Results of arthroscopic subtalar Fusion - 22 cases	Kaufmann G., AUT

TOPIC INNOVATIONS IN FOOT SURGERY

Chair: Bock P., Siorpaes R.

18:30 – 18:40	Shark Screw - High strength allogenic bone screw	Sommer G., AUT
18:40 – 18:50	What we can do with the Shark Screw	Pastl K., AUT
18:50 – 19:00	Human bone screw (Shark Screw) for fixation of Austin-Osteotomy - first experiences	Herz T., AUT
19:00 – 19:10	Bioresorbable Magnesium vs bioresorbable polylactide screw for Austin fixation	Chraim M., FRA
19:10 – 19:20	Clinical and radiological outcomes after Weil osteotomy compared to distal metatarsal metaphyseal osteotomy in the treatment of metatarsalgia of lesser rays - a prospective study	Jordan M., GER

KEYNOTE LECTURE

Saturday, March 24th – MORNING

HINDFOOT FUSION

9:00 – 10:30	Possibilities of fixation of pantalarfusion	Chraim M., FRA
		10:30 – 11:00 COFFEE BREAK – visit the exhibition
11:00 – 12:00	Sports after ankle fusion	Schuh R., AUT

Saturday, March 24th – AFTERNOON

TOPIC ANKLE ARTHROSCOPY

Chair: Vega J., Walther T.

14:00 – 14:20	All arthroscopic approaches for the treatment of ankle instability	Vega J., ESP
14:20 – 14:40	Evidence of arthroscopic assisted ligament repair	SymeonidisP., GRC
14:40 – 14:50	Endoscopic FHL-transfer	Galla M., GER
14:50 – 15:00	Posterior hindfoot endoscopy	Espinosa N., SUI
15:00 – 15:10	Does intra-articular load distribution change after osteochondral grafting in patients with ID of the talus	Bode S., AUT
15:10 – 15:20	Accessibility of the talar dome with and w/o non invasive distraction by dorsal ankle arthroscopy	Schuh R., AUT
15:20 – 15:30	Tendoscopies around the ankle	Eppel M., AUT

15:30 – 16:10 COFFEE BREAK – visit the exhibition

TOPIC VARIA

Chair: Dohle J., Ivanic G.

16:10 - 16:20	Long-term follow up after first metatarsal cheilectomy for treatment of mild and moderate hallux rigidus	Kunzmann S., AUT Chraim M., FRA
16:20 – 16:30	Risk fractures of MTP I fusion	Waizy H., GER
16:30 – 16:40	Continous Wound Infiltration after hallux valgus surgery	Braito M., AUT
16:40 – 16:50	Biomechanical comparison of proximal Chevron osteotomy against modified Lapidus osteotomy of the first metatarsal	Kasperek M., AUT
16:50 – 17:00	Lapidus AD with planter plate, weight bearing	Dohle J., GER
17:00 – 17:10	Lapidus fusion with plantar plate fixation	Joos Bielez D., AUT
17:40 – 17:20	Microvascular free tissue transfer for the reconstruction of complex foot and ankle defects	Harper-Machin A., GBR
17:20 – 17:30	Scarf osteotomy with open lateral or transarticular release	Hartenbach F., AUT Trnka H.-J., AUT
17:30 – 17:40	LIPUS therapy on delayed and nonunion of elective foot and ankle patients	Choudhry N., GBR
17:40 – 18:00	DISCUSSION
